

Dear Sinclair:

We are unhappy that a broadcasting station should abuse the public interest by airing a documentary that is biased just days before this election and call it a news article.

The public airwaves are yours and mine and Sinclair is obligated by law to service the public interest.

This misuse of our airwaves abuses our democracy. We need to strengthen public ownership rules. Please consider looking at strengthening the licensing process and the problem of media consolidation.

Sincerely,
Donna Lee
and The Rev. Sam Wright
